ORDERS & ENQUIRIES

When enquiring or ordering Tilley Perforated Metals it is most helpful if customers can have the following information to hand:

- 1. Perforation Number / Hole Diameter
- 2. Type of Material
- 3. Material Thickness
- 4. Number of Sheets Required

In addition to the standard range, Tilley Group Ltd can manufacture non standard designs to order, however it should be noted that the material thickness cannot exceed the diameter of the holes.

CUSTOM PERFORATION

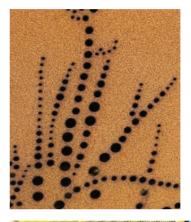

In addition to our stock offerings, Tilley's has a long history of catering to the bespoke requirements of our customers. Our fully staffed local production facility features a suite of sheet metal processing machinery to meet your custom manufacturing needs and specialise in large scale or mass production perforated metal requirements. Our capabilities include:

Custom Perforation, Laser Cutting, Folding, Fabrication and Finishing services.

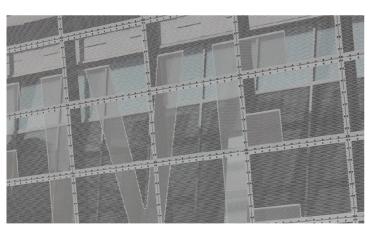

Get in touch with one of our experienced sales team to discuss your project and see how we can help bring it from concept to reality.
